

VITAL RECORDS OF PLYMOUTH, NH

ARRANGED BY FAMILY NAMES

1863-1900

VOL. I

Transcribed and compiled by

Norton R. Bagley

Michael O. Vacca

**VITAL RECORDS ARRANGED BY FAMILY NAMES
1763-1900**

This work is intended to supplement Vital Records of Plymouth, NH. The plan is to put all persons with the same family name in one place, with enough information to identify each one. The researcher should then go to the "Vital Records of Plymouth, NH" by Bagley and Vacca, for more complete information.

Births, Marriages and Deaths are included in the same alphabetical list of the family name.

Deaths of married women are included under their maiden name, so they appear with the family into which they were born. The married name is included, (Ex. Smith, Bertha, wife of John Black). When no maiden name is given the entry will be found under the Smiths. (Ex. Mrs. Bertha Smith, d. 1850)

Records up to 1850 are very scant. Many times the actual date of the marriage is not given, or only the date when the intention of marriage was published or the date the certificate was issued is given. When the date of marriage is not given we have used the date of the certificate. If we had to use the date of publication, that is indicated. Persons should check with vital records if they find a disagreement with other data.

Other information about Plymouth families may be found in the "Vital Records of Campton" transcribed by Bagley & Vacca. Another source of information can be found in the cemetery lists transcribed by Bagley & Vacca for the towns of Plymouth, Holderness, Campton, Ashland, Bridgewater, Ellsworth, Rumney and Foster Cemetery in Wentworth.

All places are Plymouth unless otherwise noted.

Plymouth Town Reports include vital statistics for all births, deaths and marriages to about 1967, after which only a selected number is given. Vital records for births after 1900, and for marriages and deaths after 1949 are not available to most persons under the Privacy Acts so these records from the town reports are the only ones readily available.
